LOCAL NEWS.

WEATHER PROBABILITIES.—War Department, Office of the Chief Signal Officer, Washington, D. C., Sept. 13, 1876—10:30 a. m.—For the Middle Atlantic States stationary or rising barometer, northerly winds, cloudy weather and slight changes in temperature.

THE SUPERINTENDENT OF GAS.—Mayor Johnson feeling that the denial, by Mr. Nash, Superintendent of Gas, of the statement published in the Gazette, to the effect that the Mayor's authority, regarding certain propositions made to Mr. Nash's successor, rested on the truth of that statement, had a conference with all the parties alluded to, at the Mayor's office, last night. Mr. Henry Hammill, the person who made the proposition to Mayor Johnson, made a statement, and Mr. Orlando Wood read one taken down from Mr. Hammill's recollection of what occurred, both of which agreed substantially with the account published in the Gazette, except that Mr. Hammill denied having been seen by Mr. Nash, and said that he went solely on his own responsibility, and with a view to securing for himself the vacancy which would be created by Mr. Wood's appointment. Mr. Nash then stated that it was not his intention to deny the truth of the statement about Hammill's interview, about which he knew nothing, but merely to deny that he had authorized Hammill to make any proposition to the Mayor. Mr. Nash also objected to the statement that he had been rebuked by the Mayor, not regarding what had passed between them in the nature of a rebuke. To this Mayor Johnson said that of course he could not control the language in which the reporter clothed the item, but that he had told the reporter that he had called Mr. Nash before him and spoken to him of the impropriety of the proposition made by Mr. Hammill. The Mayor further said that he was not satisfied with the disclaimer on the part of Mr. Nash of any connection with Mr. Hammill's proposition, and would let the whole matter drop. He further said that Mr. Hammill's statement of the conversation that occurred between them was substantially correct, with the exception that he understood Hammill to threaten as he left his office, that in consequence of his, the Mayor's, refusal to bind himself to Mr. Wood's appointment, the resignation would not be sent to him. All parties expressed themselves satisfied and the conference ended.

KNIGHT TEMPLAR CELEBRATION.—The Knight Templar celebration, which takes place on Wednesday and Thursday, the 15th and 16th of November, will likely be, should the weather prove propitious, the most imposing display ever witnessed in this city. Old Dominion Commandery is now arranging the details for their entertainment, and purpose to make the occasion an event long to be remembered in Virginia Templarism. It is expected that about 500 Knight Templars, with seven or eight bands of music, will be in line. There being no hall in the city large enough to accommodate them the committee in charge of the matter are negotiating for the hire of an immense tent, capable of seating the whole number at the banquet to be given on Thursday night. When a similar celebration composed of all the Knight Templars in the country took place in Baltimore a few years ago the city authorities and citizens were so overcome in their hospitality, and we bespeak for our people a prompt and earnest greeting to those who may visit us in November next. Col. R. E. Withers, Grand Eminent Commander of the State, will be in command, assisted by Grand Captain General John F. Reganault, of Richmond. It is suggested that our citizens, especially those living along the line of march, which will be published, shall decorate their stores and dwellings on Thursday, the day on which the parade takes place, as was done on the occasion of the visit of the 5th Maryland regiment last February. This would be an expression of welcome which would add greatly to the interest of the occasion.

SUNDAY LAW CASE.—The case of Mr. L. is Appiah for alleged violation of the Sunday law, was again brought up before Mayor Johnson at eleven o'clock to-day. After hearing the evidence of Mr. Augustus Butts, the witness for the prosecution, the Mayor sent Mr. Appiah for trial at the next term of the Corporation Court, and bailed him in the sum of \$500. Messrs. Charles Brill and L. Russell becoming his securities. In the course of the examination the Mayor read the law to Mr. Appiah, and said that the case was a criminal one, and not a civil one, and that an offense against the law could not be gotten over, or any other crime.

ACCIDENT.—A little boy, aged about five years, son of Mr. E. H. O'Brien, of this city, who has been spending the summer near Middleburg, met with what would have proved a fatal accident on Friday last. The child, in company with a negro man, was riding along the road in an ox cart, when the front part of the cart came away, throwing the child out and almost under the wheels. The negro, with rare presence of mind, jumped after the boy and pushed him out of the way of the wheel, which, however, grazed his head, scraping off the skin and bruising him quite severely. The negro had his arm run over and badly bruised, but fortunately no bones were broken. Had it not been for his presence of mind and courage Mr. O'Brien's boy would certainly have been killed.

TILDEN AND HENDRICKS CLUB.—A meeting of the Executive Committee of the Central Tilden and Hendricks Club was held at Mr. Kemper's office on King street, last night. It was determined to erect a stand for public speaking, at the southwest corner of King and St. Asaph streets, and to have a meeting there on Wednesday night, at which time Hon. Montgomery Blair, H. O. Claiborne, esq., and others are expected to address the people. Sub-committees were appointed to make the necessary arrangements and the committee adjourned.

FURNITURE FOR MOUNT VERNON.—The steamer Arrow, on her down trip to Mount Vernon to-day, took on board at this city several packages of furniture for the Connecticut room in the Mount Vernon mansion. The furniture, all of the pieces of which are relics of colonial times, is the contribution of a party of ladies and gentlemen who visited Mr. Vernon and this city on an excursion party about a year ago. The furniture was brought here from New York by the steamship E. C. Knight.

NEW BUILDING.—Mr. Robert Porter is about to add to his already extensive brewery by building a bottling house on the east side of the Asaph street directly opposite the main building. Heretofore, Mr. Porter has done all of his bottling in Washington, but his Southern trade in bottled beer is increasing so rapidly that he has found it necessary to establish the new house in this city.

BARGAINS.—Some special bargains are advertised by H. C. Slaymaker Co. Everybody wants just such in these hard times, so read the advertisement, then go and see them. Slaymaker Co. may have bargains to continue to draw the crowd as they do.

GOOD BOARD.—An excellent remedy. Dr. Bull's Vegetable Pills are superior as a cathartic to any other in all the uses to which a purgative is employed.

TELEGRAPH NEWS.

The Indians.

NEW YORK, Sept. 13.—A Bismarck, D. T., dispatch of the 12th says: A Standing Rock letter, dated the 12th says: An Indian arrived last night from the hostile camps with a message from seven of the hostile chiefs. He is known to have left the agency about three weeks ago for the hostile camps. While he does not claim to have been with Sitting Bull, he says he was with another much larger camp, where the lodges and Indians covered all the prairie. He reports these Indians as abundantly supplied with fresh meat, Buffalo and antelope being in great abundance. They are also reported to have more arms and ammunition than they know what to do with. They daily watch the men who are engaged in building the new post on Tongue river, and say at one time they could have destroyed another body of troops as they did Custer and his band, but they thought they were going home, and for that reason did not care to disturb them. This is supposed to have been Gen. Miles and his regiment when they started back for the Yellowstone. They are anxious to treat for peace and do not care to fight the soldiers if they are let alone, but if they are not will fight for years if necessary. The writer says several of the bands refused to be counted and rode away accordingly withheld from them. One chief who submitted to the enumeration, and received his rations and sent them on the ground. It is claimed that more than half of the number of Indians which the agent claimed to have been issuing to. Though the new supplies have not arrived full rations of flour and half rations of sugar, coffee, tobacco and bacon are issued. The correspondent claims the Indians received full as much under this issue as they had formerly received for double the number of lodges. Captain Collins has been detailed to assist Lieut. Roach in the count of refractory lodges.

Intelligence from Fort Thompson, Dakota, dated September 31, says advice received from Fort Pierre and subsequently confirmed, report that a party of five men were killed by Indians near the Wakapa River on their way to the Black Hills. The massacre took place near the head of the river, and it is thought that some of the party must have got away and penetrated the foot hills as far as Crook City, from which place a force of fifty miners came out to open the road to the Missouri. It is reported that these were attacked and surrounded and held crouched on a hill for a whole day while a messenger escaped and went to the hills for reinforcements. Twenty others came out to the assistance of the besieged men, but before being able to co-operate with the Indians they were attacked and overpowered by the Indians and all massacred. This is the latest report which has not yet been confirmed, but it seems probable, as the Indians have recently appeared in large numbers from the hostile camps in the neighborhood of the Black Hills, and even at the Cheyenne river agency.

Gen. Custer's Rimington rifle and a black horse he used to ride at Lincoln have been captured by some Black Hillers from a young warrior killed on the route to the Black Hills.
